Information for Private Patients

Last name _____

First name _____

Date of birth _____

Address _____

Town _____

Telephone number _____

Insurance _____

Identification number _____
(ID card, passport, driving licence)

Agreement on Fees

Private medical treatment and billing are based on the GOÄ [official German Scale of Medical Fees].

The GOÄ stipulates how the patient is to be billed for medically essential services. It also lays down how services that are not explicitly stated in the schedule of fees are to be calculated (analogous evaluation), how costs of materials are to be billed, and in what circumstances it is possible to exceed the thresholds. This enables us to effect an increase of up to 3.5 times the rate.

The doctors' fees are determined solely by the GOÄ.

Any reimbursement of the costs to the insured by his/her insurer or benefits office as well as any co-payment is totally irrelevant to this.

The result is that your private insurance may not cover the costs to be billed, or not in full.
